#LikeABosch

Aufgaben

- During your internship, you will support the development of a global category strategy for large stamping and deep drawing parts, springs and conductive parts.
- You will assist in the management and processing of new tenders, including the awarding process, as well as in capacity and tooling planning for purchased parts.
- Furthermore, you will be responsible for independently analyzing purchasing data such as volumes, part numbers, drawings and for supporting the global category team to develop a category negotiation approach.
- Finally, you will work as part of the global purchasing team, including project purchasing and purchasing quality.

Profil

- **Education:** studies in field of Business Administration, Business Engineering or comparable
- **Experience and Knowledge:** first experience with AI (ChatGPT or similar), Power BI, Excel Macros are an advantage
- **Personality and Working Practice:** you adapt easily to changing situations, analyze complex information effectively, and communicate clearly across cultures, fostering collaboration and understanding in diverse teams
- **Enthusiasm:** ambition to work and collaborate in an international team
- **Languages:** fluent in English, German is a plus
